

EMPIRE BAY PUBLIC SCHOOL SOCIAL MEDIA GUIDELINES

EBPS will develop a future-focused community of life-long, engaged learners where students feel valued and have a strong sense of belonging, supported by caring and dedicated staff.

Rationale:

Empire Bay Public School recognises the importance of teachers, students and parents/carers engaging, collaborating, learning and sharing through social media applications. These applications include, but are not limited to, Facebook, Twitter, Blogs, and other online tools through which people connect and share information.

All members of the Empire Bay community are expected to uphold the values of the school in all Social Media interactions. Staff, students and parents/carers will not act in such a way that the image of Empire Bay Public School is brought into disrepute nor in a way that harms members of the school community.

Therefore, it is expected Empire Bay Public School's staff, students and parents/carers use Social Media in a respectful and responsible manner. Social Media should not be used to insult, present offensive or inappropriate content or to misrepresent Empire Bay Public School or any member of the school community. It is not a tool for complaints, these should be directed to the appropriate personnel at the school.

Aims:

The aim of the Social Media Policy is to set standards of behaviour for the use of Social Media that are consistent with the values and expectations of Empire Bay Public School. It aims to protect the safety and wellbeing of students, teachers and the school community. If however, there is a breach of the school's Social Media Policy the school will undertake disciplinary action on a case by case basis relative to the issue which has arisen.

All reports of cyberbullying and other inappropriate technology use which brings the school into disrepute will be investigated and may result in a notification to police where the school is required to do so. A register of names will be kept where underage use of social media has been brought to the school's attention for misuse. This may include notifying the app developer. Community members writing inappropriate comments on the school page may result in being banned and blocked from the group. Students, under the age of 13, attempting to join the page will also be removed.

PARENT GUIDELINES:

Classroom Dojo and other Social Media tools open up communication between students, parents/carers and teachers. This kind of communication and collaboration can have a large positive impact on learning at Empire Bay Public School. The school encourages parents/carers to participate in such activities when appropriate but requests that parents/carers act responsibly and respectfully at all times, understanding that their conduct not only reflects on the school community, but will be a model for our students as well.

Parents/carers should adhere to the following guidelines:

- Be aware that many Social Media sites have age restrictions that **DO HAVE** implications for their primary aged children. Parents/carers need to monitor their children's online social media activity, and read the terms and conditions of various Social Media sites and applications their children are interested in using. Parents/carers need to be aware that many of them have age restrictions for their use. Eg Facebook, Instagram, Tik Tok and Gmail are all restricted to those **13 years of age and above.**
- Parents/carers need to be aware that they are in breach of terms and conditions if they set up a personal account for their children to use if they knowingly understand that age restrictions apply.
- Before uploading photos, audio or video, parents/carers need to seek appropriate permission from any individual involved. This most particularly applies in relation to the privacy of the staff of Empire Bay.
- Online postings and conversations are not private. Do not share confidential information, internal school discussions, or specific information about students, staff or other parents/carers.
- Be conscious of the fact that expert advice given is that all users of Social Media sites should do whatever they can to not identify any child by name or associate them with a particular school.
- Parents/carers will not attempt to destroy or harm any information online.
- Parents/carers will not use classroom social media sites for any illegal activity, including violation of data privacy laws.
- Parents/carers are highly encouraged to read and/or participate in the school's social media activities. Parents/carers should not distribute any information that might be deemed personal about other students participating in the social media activities. **This includes photographs.**
- Parents/carers should not upload or include any information that does not also meet the student guidelines above.
- Parents/carers should not participate in spreading false or unsubstantiated rumours or false information in regards to the Empire Bay community and its members.
- Parents/carers assisting with classroom activities should not make use of social media sites while involved in such activities.

STAFF AND TEACHER GUIDELINES

Social Media in relation to staff and teacher relates to blogs, wikis, podcasts, digital images and video, instant messaging and mobile devices.

- Online behaviour should at all times demonstrate a respect for the dignity of each person.
- Social networking sites such as Facebook or Instagram must not be used by staff as a platform for learning activities with students.
- Staff should not accept students as 'friends' on their own social network sites or interact with students on social networking sites.
- Staff and student online interaction must occur only in an educational context.
- Staff are advised to **NOT** accept ex-students or parents/carers of current students as friends on personal Social Media sites.
- Staff must not discuss students or colleagues or publicly criticise school policies or personnel on social networking sites.
- Staff are personally responsible for content they publish online. Staff need to be mindful that what they publish will be public for a long time.
- Staff online behaviour should reflect the same standards of honesty, respect, and consideration consistent with the standards that apply on school premises and in accordance with the school's values.
- The lines between public and private, personal and professional are blurred in the online world.
